Section #	C	NC	R	Narrative	To Be Corrected
433		X		Observed mop in back of deli to be drying in mop bucket.	RETRAIN STAFF
187	X			Observed fried chicken in warming unit probed at 129F. This was just the chicken that was sitting close to a corner of the unit where there was a smaller heating lamp than the rest of the unit. This may be the reason of the chicken in the corner to be cooler. This is a new unit. Facility is to log for one week the temp of the chicken and throw out any that drops below 135F. Log will be emailed to FCHD after one week.	7/15/21
